

## **REMARKS**

By this Second Preliminary Amendment applicant has amended the specification and Figures to remedy formal matters. Specifically, element identifiers have been revised so as to correspond to the element identifiers called out in the specification, and to avoid duplicate element identifiers referring to different elements. Various grammatical errors have also been corrected.

Applicant has also herein canceled claims 2, 4, 10, 13, and 14; and amended claims 1, 3, and 5-7. Specifically, claim 1 has been amended to incorporate the limitations recited in canceled claims 2 and 4, which previously depended from claim 1; claim 7 has been amended to incorporate the limitations recited in canceled claim 10, which previously depended from claim 7; and claims 3, 5, and 6 have been amended to now depend from claim 1 instead of canceled claim 2.

In view of the foregoing, applicant respectfully submits that the amendments to the specification, drawings, and claims do not introduce new matter, and entry thereof is respectfully requested.

The Commissioner is hereby authorized to charge payment of any of the following fees that may be applicable to this communication, or credit any overpayment, to deposit account number 23-3178: (1) any filing fees required under 37 CFR § 1.16; (2) any patent application and re-examination processing fees under 37 CFR § 1.17; and/or (3) any post issuance fees under 37 CFR § 1.20.
